2) From **Trianon-Masp** take the green line (linha verde) towards "Vila Madalena"

3) Get off at **Consolação** (it is just one station after Trianon-Masp)

4) As you get off at **Consolação**, you will see a tunnel which leads you to "Estação Paulista" (walk until the end of this tunnel. When the tunnel ends, you will be at "Estação Paulista")

5) From **Estação Paulista** take the yellow line (linha amarela) towards **LUZ**;

6) Get off at **República** (it is the next stop);

7) From **Estação República** go to the red line (linha vermelha) towards **Estação Palmeiras Barra Funda**, which is the final stop.

Follow the signs to the exit which is called Av. Marques de São Vicente. After passing through the turnstiles, turn left and walk until the end of the station. At the end of the station, go down the stairs

and you will see immediately a large white and blue building across the street in front of you. The white and blue building is the Instituto de Artes, and next to it is a large white and **green building** which is the Instituto de Física Teórica. Enter in the gate between the two buildings and from the green building go to the 4th floor. My office is the first office of the corridor.
