

XIII Workshop on New Physics in Space

Instituto de Física Teórica - UNESP, São Paulo, Brasil

November 28 - December 2, 2016

The New Physics in Space Workshop is a traditional biannual event widely known in the astronomical and cosmological communities in Brazil for providing an efficient platform for interdisciplinary discussions among theoretical physicists, cosmologists and astronomers. Now in its 13th edition, it will be the venue for several talks on recent progress achieved in these fields. We also plan to have poster sessions especially for new students in the area. *There will be no registration fee.*
