August 21, 2018
IFT-UNESP, São Paulo - Brazil

**MINI-WORKSHOP
ON MATHEMATICAL
MODELING OF
INFECTIOUS
DISEASE
DYNAMICS**

LORA BILLINGS
Montclair State U., USA

SHWETA BANSAL
Georgetown U., USA

SARA DEL VALLE
Los Alamos National Lab., USA

Profs. Bansal, Billings and Del Valle have highly contributed in the area of biomathematics and in particular of epidemic modeling. Their visit to Brazil will allow an exchange of ideas between research groups in the US and Brazil that could bring about future collaborations, especially in the control of epidemics caused by mosquitoes that are present in both countries. There is no registration fee and everybody is welcome to participate.

IFT-UNESP Auditorium

Tuesday, August 21, 9:30 to 12:00
R. Dr. Bento Teobaldo Ferraz, 271 -
bloco 2 - 4th floor - Barra Funda
