The goal of the Symposium, a follow-up of a workshop held in 2019, is to work towards establishing a regional consensus on the scientific objectives for each of the main topics of the submission tracks and to analyze the relevance of the proposed projects for the fulfillment of these objectives.

The Open Symposium will consist of plenary sessions and invited talks with ample time for discussion. White papers will be presented in short 10 minutes sessions and reviewed by the convenors of the respective subgroup. The short presentations will summarize the contents of the white papers and the convenors will put them in the perspective of the LA and international scenario, preparing the discussions to be followed.

Due to COVID-19, the symposium will be held online. Links to the videoconference will be available on the webpage, and if you wish to participate please register. *Participants who registered before March 8 do not need to register again.*

There is no registration fee.

Registration deadline:

June 28, 2020
