NUINT 24 is the 14th in a series of workshops concentrating on neutrino-nucleus interactions. The goal of the series is to bring theorists and experimentalists from the nuclear and high-energy community together to address the many challenges of understanding these complex interactions. This edition will be held in São Paulo, Brazil. NUINT 2024 is jointly organized by the University of Campinas (UNICAMP) and by the Brazilian Center for Research in Physics (CBPF)
