

ICTP-SAIFR 12TH ANNIVERSARY SYMPOSIUM: PHYSICS FOR SOUTH AMERICA

February 18-20, 2024
Campus of IFT-UNESP & Instituto Principia, São Paulo, Brazil

The ICTP South American Institute for Fundamental Research (ICTP-SAIFR) began its activities in 2012 as a collaboration of the International Center for Theoretical Physics in Trieste (ICTP) with the Institute for Theoretical Physics of São Paulo State University (IFT-UNESP) and the São Paulo Research Funding Agency (FAPESP). To celebrate its 12th anniversary and plan its next phase of activities, ICTP-SAIFR is organizing a symposium of public talks, research seminars and round-table discussions with the participation of its Steering Committee and Scientific Council, its Associated Members from South America, and several invited speakers including Nobel Laureate David Gross. This symposium also is part of the ICTP 60th anniversary celebration.

There is no registration fee for any of these activities, and everyone is welcome to participate without registering. Seating may be limited, and the complete program is available on the webpage. Most activities will be transmitted online by YouTube and/or Zoom.
