Modelling and Observing DENSE STellar systems 2027 (MODEST-27) is part of a long-running series of conferences bringing together researchers working on dense stellar systems and related phenomena. The conference topics focus on the interplay between stellar dynamics, stellar evolution, and observations, with connections to compact objects, gravitational-wave sources, stellar multiples, transients, Galactic archaeology, and upcoming large surveys such as Gaia DR4, Rubin/LSST, Roman, and spectroscopic programs.

This Conference will be preceded by the MODEST-27 School, from July 5 – 9.

Registration deadline: May 14, 2027
